

Spotlights for Monthly Update mail

This is a quick overview of how to complete the Monthly spotlights for the Update mail. This is usually completed around the 23rd of the month and can be spread out over a few days if needed. The mail goes out on the 01st of the upcoming month.

Step 1:

Firstly, you can log into the admin area in webador and then go to the website browser by clicking on the "Tools" dropdown.

Step 2:

Within the website browser, you can then click down on the button for "filters". From here we are going to set our filters.

Website browser

Filters ▾

Spotlight? -	Subscription All	Backend website www.jouwweb.nl www.webador.com www.webador.de www.webador.fr www.webador.es www.webador.it www.jouwweb.be	Design 100 Percent (100-percent) Pure Spa (100-percentblauwhoeve) Poisson (100-percentpoisson) 100 Percent (100-percentvariation_1) 100 Percent (100-percentvariation_2) 100 Percent (100-percentvariation_3) Authentic (Authentic)	Category ☐ Website ☐ Online store ☐ Blog
Published? -	Country of origin (owner) NL, DO of US	Activated? -	Include deleted? ☐ Yes	Completed? -
Achievement created activated completed configure-seo		Created From dd/mm/yyyy	To dd/mm/yyyy	Experiments Enter experiment ☐ Goal achieved

Apply filter

Step 3:

To set the filters, I go by one website title at a time. For example webador.com or webador.com.au.

The filters to look at will be Subscription, Backend website, published, activated and completed. You will then also set the date under "created" you will set this for the month you are in. So from the 01st June to today's date.

The filters should be as follows:

- Subscription: it is not possible to look at more than one at a time unless you choose All, however free websites will then also show up. Here I usually choose one at a time, so start with Pro customers and then you can change this to Business customers. You can then choose one from each category to spotlight for the mail.
- Backend websites: This is where you will choose the domain. So for you this will be webador.ca, webador.com.au and webador.nz. Again choose one at a time to make this easier for yourself and so you know what you have spotlighted.
- Published: Click Yes
- Activated: Click Yes
- Completed: Click Yes
- Created: Choose the date from the 01st of the month to the day you are completing this.

Once you have all of these in you can click the apply filter. Your search should then look as follows:

Apply filter

Step 4:

You will then need to wait for this to load. This can take some time while it loads the websites within the filter so don't worry if you think this is taking too long.

Once the website load, I click the created on button once, so the oldest websites are at the top.

7.176.690 website(s)

#	Website	Owner	Created on on ▲	Modified on	Upgraded on	Category	Design	Labels
---	---------	-------	------------------------------------	----------------	---------------------------------	----------	--------	--------

Step 5:

You can then begin opening the websites and taking a look through them. Make sure that the website is completed before you spotlight this as they also go to our example page. Once you see a website that you feel looks good and is fully completed you can go to the website admin page and click spotlight.

Subscriptions

I usually choose the home page but if you feel there is another page of the website that look great you can change this once you spotlight it.

Step 6:

Once you have done this for one domain you can then move onto the next one and follow the same process 😊 All the filters will stay in place so you should only need to change the backen d website or the subscription page.

Step 7:

The last thing I do is go back to the admin page, click tools and then go to the monthly update mail. I choose the domains that I have just added and make sure these have been added:
